**PRELIMINARY AMENDMENT**

JUN 24 2002

Technology Center 2600

Commissioner for Patents  
Washington, D.C. 20231

Dear Sir:

Please enter the following preliminary amendment in the above-captioned case.

Please amend the case as listed below.

**IN THE SPECIFICATION:**

Please replace the paragraph beginning at page 3, line 8 in the "Description of the Related Art" section with the following paragraph:

A1  
The method disclosed in Kodosky et al allows a user to construct a diagram using a block diagram editor. The block diagram may include a plurality of interconnected icons such that the diagram created graphically displays a procedure or method for accomplishing a certain result, such as manipulating one or more input variables and/or producing one or more output variables. In response to the user constructing a diagram or graphical program using the block diagram editor, data structures may be automatically constructed which characterize an execution procedure which corresponds to the displayed procedure. The graphical program may be compiled or interpreted by a computer.
